Delivery Information

- Orders should be placed before NOON the day before your scheduled delivery day so that we have time to assemble and load it on our delivery trucks.
- Trucks are loaded the afternoon before your delivery day; therefore, any changes to orders must be made before NOON the day before your scheduled delivery day. **ENTIRE ORDER CANCELLATIONS MUST BE MADE BEFORE 8 AM the day before your scheduled delivery day.**
- Delivery days change according to the season so please check with us or check the top of the inventory sheet for up to date information regarding which day we are sending a truck to your area.
- Orders are processed in the order they are received.
- Orders may be placed by phone, fax, email or **THE BEST WAY** by using our online inventory and ordering portal. Please give us a call or email us and we can send you a link and password.
- We will make all efforts to honor specific delivery requests (i.e. time, location, etc). However, our trucks are loaded with fuel and time in mind so that our drivers can make all of their stops efficiently. If your request cannot be honored we will let you know and give you our best estimate as to the time your order will be delivered. Our trucks have GPS tracking so, if you give us a call, we can give you timely updates as to the location of our drivers.
- All delivered orders will incur a fuel surcharge. Fuel surcharges change depending upon the cost of diesel fuel. Additional shipping charges may occur if the order does not meet a minimum for free delivery. Please contact us and we will let you know what these minimums are for your area.

PLANT SPACING CALCULATORS

We recommend planting 4" pots of bedding plants on 8-10" centers (the center of one plant to the center of the other). This spacing will allow for adequate air circulation and will allow the plants to grow in together creating a nice mass of color. Spacing can be greater for 4.5" and 6" pots or for spreading type plants like wave petunias.

		Spacing of Plants (both directions)							
		4"	6"	8"	10"	12"	15"	18"	24"

Landscaping Hard Goods

In addition to the extensive variety of annuals, perennials, herbs and vegetables that are included in this catalog, we also offer an array of hardgoods to meet your landscaping needs. These include the following products...

FERTILIZERS

- Blood Meal
- Bone Meal
- 12-6-6 Controlled Release Fertilizer
- Milorganite Fertilizer
- Osmocote Classic 14-14-14

ANIMAL REPELLANTS

- Epic Animal Repellants
- Sweeny's All Season Deer Repellent

INSECT CONTROL

- Wasp & Hornet Spray
- Fire Ant Killer
- Captain Jack's Organic Dead Bug
- Snail & Slug Bait
- Eight Insect Control Garden Dust

BED PREPARATION

- Organic Compost
- Subdue GR Granular Fungicide (*a must for bed preparation in South Louisiana*)
- SunGro Sunshine Professional Grow Mix

WEED CONTROL

- Hi Yield Dimension Weed & Grass Stopper
- Liquid Weed Killer

MULCH

- Premium Crushed Pine Needle Mulch (2 cf bags)
- Premium Hardwood Timberland Mulch—Black, Brown & Red (4 cf bags)
- Redwood Classic Grade A Mulch (3 cf bags)

We can also custom order other materials that you may need. Let us bid on your materials. We may be able to save you money and time by picking up or delivering your hard goods at the same time as your plants.

PROVEN WINNERS SELECTIONS

(all are in Proven Winners brand 4.5” pots/8 pots per flat)

BIDENS, Campfire (Flame & Marshmellow)

Vigorous and heat tolerant plant with flowers that bloom in the fall. It continuously blooms and reblooms. Deadheading is not necessary. Campfire attracts bees. It grows 12” tall in the garden and spreads up to 16” with a mounded habit. Plant in full sun in borders, containers and in mass landscape plantings.

BIDENS, Goldlocks Rocks

This long blooming, drought, heat and cold tolerant bidens has huge flowers that have won 12 awards as a top performer in the garden. With bright golden flowers it fills the garden or containers with a mounding and trailing habit. Plant it in full sun. It will grow to about 12” in height and spread up to 20”.

CALIBRACHOA, Superbells (Dreamsicle, Black Current Punch & Tropical Sunrise)

In 2019 this calibrachoa won 11 awards for Top Performer. It’s abundant, small petunia-like flowers are continuous bloomers with no deadheading necessary. It is both heat and cold tolerant. and attracts hummingbirds. Plant it in full to part sun in well drained soil. It grows to a height of 10” and spreads up to 30” making it a great choice for both containers, hanging baskets and mass plantings in the garden.

NEMESIA, Aromance Mulberry

In 2022 this Nemesia won 11 Top Performer awards. It's highly fragrant plum colored flowers continuously bloom and rebloom. It's a great choice for fall color as it can be planted in part sun to full sun in all types of garden or pot scenarios. It grows to a height of 16" and can spread up to 18".

SUPERTUNIA (Bubblegum, Picasso in Purple, Persimmon & Daybreak Charm)

Supertunias are extremely vigorous, mounding petunias that can reach up to 2 feet in height and trail up to 4 feet. They are fantastic landscape plants and are great in large containers. The continuously bloom in both heat and cold and are very drought tolerant. They attract both butterflies and hummingbirds. A good, all purpose fertilizer will keep supertunias looking spectacular all season long. They are also easily trimmed and put on new growth in about a week resulting in a fuller plant and even more blooms. Supertunias have won numerous awards for being a Top Performer and Supertunia Bubblegum is a LSU Louisiana Super Plant.

PHLOX, Intensia (Blueberry & White)

In 2010 and 2012 this Phlox won 19 awards for being a Top Performer in its class. Intensia attracts butterflies and is heat and cold tolerant. Plant it in full sun to part shade, but preferably in a spot that gets 4-6 hours of sun per day. The plant is self cleaning which means that no deadheading of flowers is necessary. It grows to a height of 16" and has a spread of up to 12" in the garden.

VERBENA, Superbena (Cherryburst, Pink Cashmere & Stormburst)

Superbenas have great vigor and wonderful performance. Its continuous blooming habit attracts bees and butterflies. It is also deer resistant. This verbena is very disease resistant. In 2023 Superbenas won 5 awards for being a Top Performer in its category. It grows to a height of up to 12" tall and spreads up to 30". Great for hanging baskets, planters and mass plantings in the garden in full sun to part sun.

ACHILLIA, New Vintage White (Yarrow)

- Perennial
- Blooms: Fall thru early spring
- Plant in full sun to light afternoon shade
- Deer resistant, attracts bees
- Height: 26" Spread: 10-12"

ALYSSUM, Crystal

- Annual
- Blooms: Fall thru early spring
- Plant in full sun to light afternoon shade
- Deer resistant
- Height: 4" Spread: 12"
- Colors: Clear Mix and Clear White

AQUILEGIA (Columbine), Earlybird

- Perennial (first year flowering)
- Upright habit with large flowers
- Plant in sun to partial shade
- Frost tolerant
- Plant in fall for blooms in spring and early summer
- Height: 20-24" Width: 8-10"
- Colors: *Blue & White, Purple & Yellow, Red & White, White and Yellow.*

CABBAGE, Osyka

- Annual
- Ornamental plants are attractive for accent & patterned gardens
- Excellent cold tolerance
- Extremely easy to grow and maintain
- Plant in full sun to full shade (in full shade centers will take longer to put on color)
- Height: 6" Width: 12"

CALENDULA, Bon Bon

- Annual
- Produces 3 inch flowers
- Blooms from fall into late spring
- Plant in full sun to partial shade
- Height: 10-12" Width: 8-10"
- **Colors: Mix & Yellow**

CALIBRACHOA, Conga

- Annual
- Mounded, trailing, uniform structure and blooms
- Great for planters & window boxes
- Keep moist but not wet
- Plant in sun to partial shade
- Height: 6"-10" Width: 10"-12"
- **Colors: Dark Blue, Orange Kiss, Diva Orange, Rose and Yellow Deep.**

CHRYSANTHEMUM, Sunbeam

Apple Cider

Homerun Orange

Lively Pink Bicolor

Cheer Red

Estatic Purple

Bliss White

Wonder Yellow

- Perennial
- Excellent mounded, flexible growth habit & larger flower forms
- Blooms in fall for about 6-8 weeks; will bloom again in late spring
- Disease & insect resistant
- Plant in full sun
- Height: 12" Width: 10-12"

DELPHINIUM, Diamonds Blue

- Perennial
- Blooms with tall, brilliant, deep blue flower spikes in early spring
- Use for containers, gardens & cut flowers
- Plant on 10"-14" centers
- Regular harvesting of flowers will promote additional blooming
- Plant in full sun

DIANTHUS, Telstar

- Annual (half hardy perennial)
- Produces masses of 1 inch flowers
- Very cold and heat tolerant
- Plant in full sun to partial shade
- Height: 10" Width: 10"
- **Colors: Crimson (deep red), Mix, Red Picotee, Pink, Purple, Rose Carmine & White**

DIGITALIS, Camelot & Dalmatian(aka Foxglove)

"Camelot"(left) & "Dalmation" (right)

- Perennial/Biennial (usually used as an annual)
- First year flowering
- Attracts butterflies
- Produces dense spikes of large, tubular flowers
- Plant in fall for blooms in spring and early summer
- Can be used as a cut flower
- Plant in full sun
- Height: 36" Width: 16"
- **Colors: Camelots: Mix, Rose & White**
- **Colors: Dalmation: Purple**

DUSTY MILLER, Silverdust

- Annual/biennial
- Finely cut, silvery white, velvety foliage
- Uniform plant
- Great for adding texture and contrast to garden beds or mixed containers
- Plant in full sun to full shade
- Height: 10 - 12" Width: 10 - 12"

ERYSIMUM, Sugar Rush

- Annual
- Produces bright, scented blooms in the fall and spring landscape
- Plant in full sun to afternoon shade in the garden; great for containers & window boxes
- Multi branching, dense flower spikes
- Height: 12" Width: 10"
- **Colors: Mix, Orange & Yellow**

IVY, SWEDISH

“Green Leaf” & “Red Leaf”

- Annual
- Foliage plant produces long white flowers when in bloom
- Use in shade to morning sun or indoors
- Not cold tolerant, so use in containers indoors or on covered patios so that they can be protected from freezing temperatures

JEWS (tradescantia)

Purple Jew (*t. zebrina*)

Variegated Jew (*t. variegata*)

Purple Passion (*t. pallida*)

- Tropicals (sometimes can be used as a perennial)
- Foliage plants for indoor and covered patios
- Plant or use in shady areas
- Not cold hardy so use in containers or hanging baskets and move indoors during freezing weather

KALE, Peacock

- Annual
- Fringed leaf plant displays uniform plant habit and growth
- Excellent cold tolerance

- Extremely hardy & easy to grow
- Plant in full sun to full shade
- Frosty weather encourages coloring
- Height: 6" Width: 12"
- Colors: Red and White

MIXMASTER COMBOS

“Bloomin’ Glory” (calibrachoa cabaret midnight blue, petunia cannonball red and verbena firehouse white)

“Biden My Time” (biden bee happy red, calibrachoa cabaret yellow and verbena firehouse red)

“Color Magic” (calibrachoa cabaret yellow, lobelia early springs dark blue, and verbena firehouse red)

“Conga Line” (calibrachoa conga dark blue, calibrachoa conga red and calibrachoa conga yellow)

“Kiss Me Goodnight” (sundrop bidens, cabaret good night kiss calibrachoa and verbena firehouse purple)

“Oh Beehave” (bees knees petunias and midnight gold petunias)

“Over the Top 23” (cabaret yellow calibrachoa, cannonball blue petunia and wink burgundy verbena)

“Rose Everyday” (calibrachoa cabaret pink, cannonball pink petunia and bacopa megacopa white)

“Santa Fe Sunset” (sundrop bidens, cabaret orange calibrachoa and firehouse purple verbena)

“Serendipity” (calibrachoa cabaret bright white, calibrachoa cabaret neon rose and calibrachoa strawberry parfait)

“Sunnyside Improved” (petunia bee’s knees, calibrachoa cabaret yellow and verbena firehouse white)

NEMESIA, Sundrop Mix

- Annual
- Blooms all winter in mild climates/winters
- Full, bushy plants fill out containers quickly
- Flowers have a pleasant fragrance and are frost tolerant
- Keep the soil moderately moist and feed with an all purpose fertilizer for beautiful plants all season long
- Plant in full sun
- Height: 8" Width: 10"

PANSY

"Cool Wave Cascading"

- Annual
- High performing, spreading pansy
- Medium sized 2" flowers
- Use in hanging baskets, planters and as a ground cover
- Plant in full sun for best results
- Height: 6" Width: 24"
- **Colors: Blue Skies, Golden Yellow & Mix**

"Delta Pro Clear True Blue"

- Annual
- Sturdy, branching limbs that hold huge 3" flowers for maximum garden impact
- Plant in full sun and fertilize with a general purpose fertilizer for best results
- Height: 8" Width: 8"

PANSY

“Mammoth”

- Annual
- Sturdy, branching limbs that hold huge 3.5” flowers for maximum garden impact
- Plant in full sun and fertilize with a general purpose fertilizer for best results
- Height: 8” Width: 8”
- Colors shown below: Mix (not shown)

Deep Blue Dazzle

Pink Berry

Big Red

Sangria Punch

Viva La Violet

White Glamorama

White Hot

Queen Yellow Bee

Prima Yellorina

Citrus Mix

Mix Clear

Coastal Sunrise Mix

Morpheus

Orange

Purple

Solar Flare

“Matrix”

- Annual
- Consistent, uniform plants
- 3” flowers on short, strong stems
- Height: 8” Width: 8”
- Plant in full sun

PETCHOA, Super Cal Orange Sunset

- Annual
- Hybrid between a petunia and a calibrachoa
- Does not have sticky flowers and leaves like a petunia
- Strong vigor and good disease tolerance
- Excellent mounded growth
- Orange sunset is a stunning addition to any garden or planter
- Plant in full sun to partial sun
- Height: 14”-24” Width: 14”-24”

PETUNIA

“Amour Queen of Hearts”

- Annuals (vegetative type)
- Unique specialty petunias that displays 5 red hearts on each blossom.
- Semi trailing habit is perfect for containers and hanging baskets.
- Plant in full sun to partial shade
- Height: 12” Width: 12”

“Pretty Flora”

- Annual
- Produces masses of large flowers on vigorous foliage
- Planted in full sun to partial shade
- Height: 12” Width: 12”
- **Colors: Midnight, Mix, Pink Pearl, Red, Rose and White**

“Wave & Easy Wave”

- Annual
- Mounding, spreading plant
- Use in garden beds, containers or hanging baskets
- Petunias do best when regularly fed with an all purpose fertilizer
- Plant in full sun to partial shade
- Height: 10” Width: 3 feet
- **Colors: Blue, Easy Formula Mix, Pink Passion, Red Velour and White.**

SNAPDRAGON

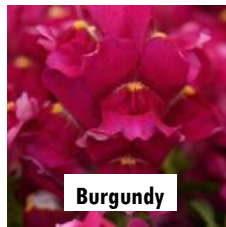

“Doubleshot Orange Bicolor”

- Annual
- Free flowering plants produce masses of flowers on tall plants that can be used for cut flowers
- Unique color
- Height: 2.5 feet Width: 14”
- Plant in full sun
- Attracts butterflies and hummingbirds
- **AAS Award Winner**

“Snapshot (dwarf)”

- Annual
- Free flowering plants produce masses of flowers on bushy plants
- Needs very little fertilizer or care
- Plant in full sun for maximum bloom
- Height: 10” Width: 10”

Burgundy

Mix

Purple

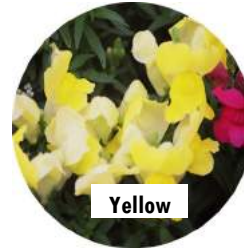

Red Bicolor

Rose

White

Yellow

“Sonnet”

- Annual
- Well branched series blooms from early fall until mid-fall and then again in the spring season
- Can be used as cut flowers
- Plant in full sun for maximum bloom
- Height: 20” Width: 12”

Crimson

Mix

Orange/
Scarlet

Pink

Rose

2024 Fall Vegetable Selections

"Southern Selections by Stelz"

and

"Stelz Patio Selections"

"Southern Selections" are those varieties that are specifically recommended for our unique southern climate. These varieties have been tested and have been proven to outperform other varieties.

Our "Patio Selections" are vegetable varieties that are specifically designed for smaller vegetable gardens and patio container gardening. They grow more compact and take up less space than a full sized vegetable plant. Some of these varieties are also "Southern Selections by Stelz" recommended varieties.

Definitions

- Determinate: Bush type that bears it's fruit all at once & is usually more manageable in size
- Indeterminate: Vine type that continues to grow in length and keeps setting fruit throughout the season—needs staking

Disease Resistant Abbreviations

- V = Verticillium Wilt
- N = Nematodes
- F = Fusarium Wilt
- PM = Powdery Mildew
- FF = Fusarium, race 1 & 2
- A = Alternaria Stem Canker
- T = Tobacco Mosaic Virus
- St = Stemphyllum

Tips for a Successful Vegetable Garden

- Pick varieties that are recommended for your area and fit your garden size
- Place vegetables in a full sun location. It should be well drained but moisture retentive. A 2 inch layer of mulch will help retain water.
- Fertilize with a good, complete plant food
- Check the pH of your soil as different vegetables may require different levels of pH. An inexpensive test kit can be purchased at your local garden center or feed store
- Be aware of the spacing requirements for the different vegetables. Don't plant too closely.
- Water deeply, rather than often, to promote good root growth.

**BEETS "Bulls Blood"**

- Produces 2-3" beets
- Mature Height: 10" Mature Spread: 12"
- Matures in 40-52

**BEETS "Rainbow Blend Mix"**

- Leading multicolor beet in North America
- Fast growing, sweet flavored
- Medium size root
- Excellent disease tolerance
- Early maturity—53 days

**BROCCOLI "Aspabroc F1"**

- Aka Baby Broccoli or Broccolini
- *Stelz Patio Selection!*
- Asparagus type stem & mild taste
- Good side shoot production
- Early maturity—55 days

**BROCCOLI "Emerald Crown F1"**

- Best cold tolerance for fall production
- Heavy, very firm, dark green heads with "frosted" appearance
- Matures in 63 days

**BRUSSEL SPROUTS "Jade Cross F1"**

- Produces high yields of deep green brussel sprouts
- Compact plants are wind resistant
- Matures well in early frost
- Extra disease tolerance

**CABBAGE "Chinese Blues F1"**

- 4.5 lb Napa type cabbage
- Excellent mild taste for cooking or raw
- Plant early for mid spring crop
- Matures 57 days

Left blank intentionally

**CABBAGE "Primo Vantage"**

- 4-4.5 lb heads
- Juicy, tender and sweet
- Resistant to fusarium yellows
- Matures 73 days

**CABBAGE "Ruby Perfection"**

- F1 Hybrid
- Produces 4 lb red cabbage
- Very flavorful & crisp
- Matures in 85 days

**CABBAGE "Stonehead F1"**

- Produces 3-4 lb green heads
- Plant early for mid spring crop
- Matures in 55 days

**CAULIFLOWER "Flame Star"**

- Medium large heads
- Pastel orange cauliflower
- Improved heat tolerance
- Matures 62 days

**CAULIFLOWER "Snow Crown F1"**

- Produces med sized 8" pure white heads
- Plant early for mid spring crop
- Space 2.5' apart & keep moist
- Matures in 50 days

**CELERY "Tango"**

- Full, upright heads with crisp, flavorful stalks
- Performs well in heat & moisture stress
- Matures in 80 days

**COLLARDS "Georgia"**

- Southern Favorite!
- High in calcium
- Tender blue-green leaves
- Matures in 80 days

KALE "Prizm F1 Curly Leaf"

- 2016 AAS Vegetable Award Winner
- Attractive short, tight ruffle-edged leaves
- Excellent taste, nutty flavor
- Matures 35-45 days

KALE "Toscano"

- Plant early for early & mid spring crop
- Heat tolerant variety
- Harvesting encourages branching
- Matures in 35 days

LETTUCE "Arugula Astro"

- Green serrated leaves
- Good disease tolerance
- Slightly milder in taste than other varieties
- Matures in 35 days

LETTUCE "Buttercrunch"

- Produces loose heads with buttery texture
- Plant early for early spring crop
- Plants like fertile soil & ample water
- Matures in 75 days

LETTUCE "Parris Island" (Romaine)

- Produces crisp leaves with sweet flavor
- Very uniform heads growing 10" tall
- Plant early for early spring crop
- Matures in 75 days

LETTUCE "Red Sails"

- Produces large, erect deep red leaves
- Soft texture & buttery flavor.
- Slow bolting
- Matures in 45 days

MUSTARD "Florida Broadleaf"

- Produces large, rich, green leaves
- Excellent freezing & canning variety
- Plant early for early spring crop
- Matures in 45 days

MUSTARD "Mizuna Miz America"

- Produces dark red, deeply lobed leaves
- Mild flavor
- Matures in 28 days (baby leaves); 40 days (full size leaves)

MUSTARD "Red Giant"

- Brilliant maroon leaves can be used as an edible or a decorative garden addition
- Textured leaves are full of zest
- Frost actually improves the taste
- Matures in 45 days

ONIONS "Evergreen Hardy White Bunching"

- Little to no bulbing—use tops
- May be used as a perennial by dividing the clumps
- Matures in 65 days

ONIONS "Red Baron bunching"

- Mild flavor
- Red, burgundy color
- Great for salads, cooking, pickling, etc
- Matures in 65 days

PAK CHOI "Asian Delight" (aka bok choi)

- Produces bunches of crisp white stalks with tender green leaves
- Excellent for stir fry or raw
- Height: 18-20" Width: 12-18"

PUMPKIN "Jack B Little"

- Miniature pumpkin 3"x2"
- Great fall decoration
- *Stelz Patio Selection!*
- Matures in 95 days

SPINACH "Countryside"

- Oval, smooth, dark green leaves
- Bolt resistant
- Matures in 25-35 days

SWISS CHARD "Bright Lights"

- Produces multicolored stems with leaves that are succulent & sweet.
- For culinary & ornamental use
- Matures in 60 days

Left blank intentionally

“Southern Selections by Stelz”™

HERBS — Culinary, Aromatic, Ornamental & Medicinal

ANISE HYSOP

- Use as bedding plant or edible flower
- Aromatic – sweet licorice-mint flavor
- Flowers can be used fresh or dried
- Medicinal: aerial parts are energizing & cooling

CHIVES

- Mild onion flavor
- Leaves are a key culinary herb
- Globe shaped blooms can be used as an edible garnish
- Can be used fresh or dried

BASIL “African Blue” (early season only)

- Sterile, perennial basil
- Aromatic – strong camphor scent
- Leaves start purple & turn green
- Culinary or Ornamental

CHIVES “Garlic”

- Thin, flat leaves with garlic flavor
- Attractive white flowers in the summer
- Flowers are edible or make an attractive addition to bouquets

BASIL SWEET “Rutgers Obsession”

- Sweet large leaf basil
- Downey Mildew Resistant variety
- Medium dark green leaves
- Sweet scent and taste
